Contract logistics

ProReServ exhibits at LogiMAT for the first time

Joint trade fair participation with LogCoop Lagernetzwerk – emphasis on co-packing, display assembly and value added services – new logistics centre in Gelsenkirchen

Gelsenkirchen, 9 March 2017 – **The fulfilment service provider ProReServ is exhibiting for the first time at LogiMAT (14 to 16 March) as a partner specialised in contract logistics. Situated in Gelsenkirchen, the logistics service provider has a workforce of around 90 well qualified employees and generous areas for the warehousing, handling, picking and finishing of goods of all kinds. Furthermore, in a few weeks, the new ProReServ logistics centre in the Bulmke-Hüllen district of Gelsenkirchen, will open. With a warehouse area of 10,000 m², it can optimally cover all logistics processes. ProReServ will be exhibiting together with the SME cooperation LogCoop Lagernetzwerk in Hall 6, Stand 6B51.**

With a view to strengthening its own market presence and to developing fresh customer potential, ProReServ has been a member of the warehousing network since 2017. “The main emphasis of our trade fair presence will be placed on co-packing, re-packing, display assembly and value added services, especially as we have long-standing experience here and are currently experiencing especially strong demand,” explains Marion Janssen, who as an authorised officer of ProReServ GmbH is in charge of logistics and administration.

ProReServ offers a wide range of services in the area of value added services created and implemented by experienced employees. Such services include, for instance, preparation work for displays, re-packaging, content checking, bundling using straps or shrink film hoods, as well as professional waste disposal. Managing batches, use-by dates and serial numbers supported through cutting-edge information technology round off the portfolio.

The new ProReServ logistics centre will provide jobs for around 90 employees. The entire team of the company's former site in Gelsenkirchen-Erle is to be taken over. The new building's design will satisfy the sophisticated requirements placed on sustainability and be subsequently certified in accordance with "DGNB Gold". The DGNB system is used for the objective specification and assessment of the sustainability of buildings. Certification is based on satisfying up to 40 sustainability criteria. The district of Bulmke-Hüllen is located to the north-east of Gelsenkirchen's town centre. The A42 motorway is only several minutes away from the Brüsseler Straße.

LogCoop Lagernetzwerk GmbH was founded in January 2016 and responds to qualified requests from shippers within only 48 hours. LogCoop Lagernetzwerk therefore specifically targets shippers who have so far addressed their enquiries and initiations to tender principally to large logistics companies. The shareholders and members of the LogCoop Lagernetzwerk consist mainly of owner-managed SME logistic companies with annual revenues of up to €250 million.

ProReServ GmbH is a professional service provider for the trade. The company, which was founded in 1999, acts as a key link between well-known manufacturers, distributors and various retailers. The full service concept comprises the five areas of logistics, merchandising & rackjobbing, administration and sales, as well as online fulfilment. The successful retail service partner concept is being steadily developed, refined and tailored to the current market situation. ProReServ supports around 1,000 outlets throughout Germany in a wide variety of sales and distribution channels and, among other things, ensures scheduling in line with requirements as well as shelf maintenance. Its business partners include well-known manufacturers and retailers in Germany, Austria, Switzerland and the Benelux countries.

ProReServ operates a logistics centre in Gelsenkirchen with 10,000 pallet bays stocking around 4,000 articles. In addition, the company which is based in Neu-Isenburg maintains contact offices in Austria, Belgium, Holland and Switzerland. ProReServ has been certified in accordance with DIN EN 9001 since 2004 and operates throughout Europe with a workforce of around 180 employees and 250 service staff.

If you are interested in finding out more and in having a LogiMAT ticket, please feel free to send an e-mail to kontraktlogistik@proreserv.de indicating names, address and your particular wishes.
