ProReServ: contract logistics in new premises

Newly opened ProReServe logistics centre in Gelsenkirchen – emphasis on contract logistics, co-packing, display assembly and value added services – joint trade fair participation with LogCoop Lagernetzwerk

Gelsenkirchen, 3 May 2017 – **Around four weeks after the opening of its state-of-the-art logistics centre in Gelsenkirchen, the fulfilment service provider ProReServ is exhibiting for the first time at the transport logistic Trade Fair (9 to 12 May) in Munich. The main emphasis of the company's trade fair presence will be on offering services in contract logistics, value added services, merchandising & rackjobbing as well as sales and administration in the retail market. The greenfield logistics centre in the Bulmke-Hüllen district of Gelsenkirchen offers 10,000 pallet bays and can optimally cover all logistics processes on a warehouse area of 10,000 sq m. Around 90 professional employees specialised in the warehousing, co-packing, re-packing, display assembly, handling, order picking and finishing of goods of all kinds work here. This serves to highlight ProReServ's reputation as a highly professional and efficient partner for contract logistics. ProReServ will be**

exhibiting together with the SME cooperation LogCoop Lagernetzwerk in Hall A5, Stand 307/408.

ProReServ offers a wide range of services in the area of value added services created and implemented by experienced employees. Such services include, for instance, preparation work for displays, re-packaging, content checking, bundling, shrink film hoods, as well as professional waste disposal. Managing batches, use-by dates and serial numbers supported through cutting-edge information technology round off the portfolio.

The ProReServ logistics centre, recently opened in April 2017, provides excellent prerequisites for delivering the versatile range of services. The new location is situated on the Brüsseler Strasse in the Bulmke-Hüllen district of Gelsenkirchen, north of the town centre. The A42 motorway is only several minutes away from here. The new building fulfils high standards placed on sustainability and is to be certified according to "DNGB Gold" in the near future. The DGNB system is used for the objective specification and assessment of the sustainability of buildings. Certification is based on satisfying up to 40 sustainability criteria.

Along with the logistics centre, the company which is based in Neu-Isenburg maintains contact offices in Austria, Belgium, Holland and Switzerland. ProReServ has been certified in accordance with DIN EN 9001 since 2004 and operates throughout Europe with a workforce of around 180 employees and 250 service staff.

With a view to strengthening its own market presence and to developing fresh customer potential, ProReServ has been a member of the Lagernetzwerk (warehousing network) since 2017. LogCoop Lagernetzwerk GmbH was founded in January 2016 and responds to qualified requests from shippers within only 48 hours. LogCoop Lagernetzwerk therefore specifically targets shippers who have so far addressed their enquiries and initiations to tender principally to large logistics companies. The shareholders and members of the LogCoop Lagernetzwerk consist mainly of owner-managed SME logistic companies with annual revenues of up to €250 million.

Profile: ProReServ GmbH

ProReServ GmbH is a professional service provider for the trade. The company, which was founded in 1999, acts as a key link between well-known manufacturers, distributors and various retailers. The full service concept comprises the five areas of logistics, merchandising & rackjobbing, administration and sales, as well as online fulfilment. The successful retail service partner concept is

being steadily developed, refined and tailored to the current market situation. ProReServ supports around 1,000 outlets throughout Germany in a wide variety of sales and distribution channels and, among other things, ensures scheduling in line with requirements as well as shelf maintenance. Its business partners include well-known manufacturers and retailers in Germany, Austria, Switzerland and the Benelux countries. More information can be found at <http://proreserv.de/en/>

If you are interested in finding out more and in having a ticket for the transport logistic Trade Fair, please feel free to send an e-mail to kontraktlogistik@proreserv.de indicating names, address and your particular wishes.
